Experience

CGI

Present

Senior developer front end architect

Police of luxembourg - Luxembourg

January 2023

I work on the PGD applications, which are developed in Angular. There are about ten applications. Version 11 -> 16 of angular.

There are also custom libraries to manage.

I've set up a portal that uses the "module federation" library to load each application inside.

Angular 11 12 13 16 - Material angular - RXJS - Accessibility - Design System - Jira

Post Group

Present

Tech lead / Senior developer front end

Post Group - Luxembourg

June 2022

I work on phone booking project of post which is developed in angular and java. I do support for other project on front end side.

I'm referent and I help other to find solutions in development and architecture.

Sometimes, i can directly handle some change in back end (Java). I challenge the team and project manager in order to improve features.

Angular 13 - RXJS - Accessibility - Play/java - Design System - Agile / Scrum Method

Ekonoo

June 2022

Tech lead / Senior developer front end

Ekonoo - Luxembourg

June 2020

I manage a front-end team and i create the architecture and components of angular projects, also one design system in collaboration with the ux.

i work on back-end with serverless aws functions and gateway and i create some functionalities necessary for the front-end.

The technologies used in front-end are Angular 11, typescript, es6, scss, and many others librairies ...

Angular 11 (Html5, Css3, Sass, Js) - RXJS - Ux / Ui - Responsive Design - Agile / Scrum Method - Design System - NodeJs - AWS
